In January 2022, with the Board's approval, MPRPD staff prepared and released a Request for Bids for the Palo Corona Regional Park Barn Roof Stabilization Project. The District's online electronic procurement platform (Procure Now) was utilized for this process, and as of the January 21st deadline, the District had received 2 responsive bids, as follows:

Sharp Engineering - \$44,000
Bayview Construction - \$84,800

This project is vital to implement emergency measures to temporarily protect and stabilize the historic ranch barn structure from further damage by rain and/or wind events.

RECOMMENDED ACTION:

Staff respectfully recommends that the Board approve the attached Bid Form and authorize Staff to enter into contract with Sharp Engineering for stabilization of the Palo Corona Regional Park barn roof.
