

# Draft Camping Feasibility Study Survey

Dear Neighbor/Visitor/Resident,

The Final Draft Camping Feasibility Study is now on-line for review and comment. This draft study assesses what is doable on the property from a physical and economic point-of-view. The district now needs to hear from you as to what is desirable. Your opinion matters; you live, work, and recreate within the district. You can help the district fulfill its mission of public service by providing your comments. Your comments will be reviewed, collated with all other comments, and summarized to inform the final plan for public access and use of the property. If you have additional comments please feel to e-mail them to Tim Jensen, Planning and Conservation Manager at [tjensen@mprpd.org](mailto:tjensen@mprpd.org).

Thank you for your help,  
Monterey Peninsula Regional Park District

---

1. Why is this open space parkland important to you?

---

---

---

2. Which of the following types of camping would you do if available on the property? *(Please check all that apply)*
