**DISCUSSION:**

Approximately 6,111 linear feet of barbed wire property boundary fencing with gates was damaged or destroyed at MPRPD's San Clemente-Blue Rock Open Space property during the August 2020 Carmel Fire. The San Clemente Blue Rock Open Space Perimeter Fencing project requires the removal and disposal of wildfire-damaged fencing, and the replacement of all wood and painted steel fence posts and painted steel gates with galvanized steel to reduce or eliminate risk/damage to property from potential future wildfires. Also, the damaged wood corner bracing will be replaced with steel corner bracing, and wildlife-friendly fencing will be used throughout.

In September 2021, with the Board's approval, MPRPD staff prepared and released a Request for Bids for the Project. ProcureNow online application process was applied, to reach contractors within California. Three (3) licensed fencing contractors submitted bids for the project: Cardoza Fencing (\$78,000), Bayview Construction (\$96,995), and All-commercial Fencing (\$415,415).

**RECOMMENDED ACTION:**

Staff respectfully recommends that the Board approve the attached Bid Form (**ATTACHMENT 1**) and Agreement (**ATTACHMENT 2**), and authorize Staff to enter into contract with Cardoza Fencing for removal and replacement of the perimeter fence at San Clemente-Blue Rock Open Space that was damaged during the Carmel Fire.
